The illustration shows a hand-drawn calendar for the first quarter of the year. The calendar is organized into three rows, one for each month: January, February, and March. Each month's calendar is on a separate card with a header for the days of the week (M, T, W, T, F, S, S) and a grid of dates. The cards are hanging on a wall with black pushpins. To the right of the calendar cards are three large, empty rectangular boxes, each also hanging with a pushpin, intended for notes or drawings.

FUTURE LOG

The image shows a hand-drawn calendar for the months of April, May, and June. Each month is represented by a large blank dotted box on the left for notes and a calendar grid on the right. The grids show the days of the week (MTWTFSS) and the dates.
